

Of all the radio stations in Eugene, all of commercials. There are a few other Christian stations, but they too have commercials. Some of them are not very clean. K-Love is. It is safe to listen to ALL the time, and the music is much cleaner than secular music.

If another radio station were to replace K-Love, it wouldn't even compare to how great this station is. And since this big bad LPFM is such a large corporation, it is not likely they will have a Christian music station. If they do, it will have commercials, not listener supported.

K-Love is important to this community. It gives positive encouragement to a negative world. Please don't take it off the air.
